## SUMMARY

DevSecOps Engineer skilled in AWS, Terraform, Kubernetes, and CI/CD automation. Experienced in Python, Go, and cloud security, integrating SAST/DAST tools for compliance with ISO 27001, GDPR, and HIPAA.

---

## SKILLS

- **Programming & Scripting:** Python, Go, Bash, PowerShell
- **Cloud Platforms:** AWS
- **CI/CD & Automation:** GitHub Actions, Jenkins, Terraform, Ansible
- **Containers & Orchestration:** Docker, Kubernetes
- **Monitoring & Observability:** Prometheus, Grafana
- **Version Control & Collaboration:** Git, JIRA

---

## EXPERIENCE

### DevOps Engineer | Poridhi.io | Remote | January 2024 – December 2024

- Designed and deployed scalable lab environments on AWS, utilizing Terraform for Infrastructure as Code (IaC) and Kubernetes for container orchestration and workload management.
- Developed automation scripts and tooling in Python and Bash to streamline provisioning, deployment, and monitoring processes, reducing manual effort and improving operational efficiency.
- Implemented CI/CD pipelines and version control workflows with Git, enabling faster, more reliable releases and improved collaboration across development and operations teams.

### DevOps Engineer | Evident Bd Ltd | Dhaka, Bangladesh | January 2023 – December 2023

- Designed and managed applications like Attendance Keeper and Inventory Keeper using Docker, Kubernetes, and AWS.
- Implemented CI/CD pipelines to automate deployment workflows, enhancing development efficiency.
- Collaborated with developers to integrate security controls into the SDLC, promoting secure coding practices.

### DevOps Engineer | Animagus Research | Dhaka, Bangladesh | October 2022 – December 2022

- Led DevOps and DevSecOps initiatives to build scalable, secure, and automated cloud infrastructures using AWS, Terraform, Docker, and Kubernetes.
- Implemented CI/CD pipelines and security automation to streamline deployments and ensure compliance with ISO 27001, GDPR, and HIPAA.
- Optimized operations and cross-team workflows, improving efficiency and helping establish the company as a leader in DevOps consultancy.
